

A Quarterly Newsletter of the Guld of Painters & Limners, in Lochac

Limning was a form of miniature painting popular in Elizabethan times. It was often done on the back of playing cards! This was a gift to a household member - Master Tovye Woolmongre. Painting by Katerina da Brescia,

There will be a meeting of the Guild at 12th night. Times will be advertised on list at a later date. I hope as many of you can make it as possible. Bring your artwork for those guild members present to rank.

Giles.

*Greetings all, from Vicontessa Lucrezia, Patron of the Peynters & Limners Guild.*

*It is my desire to have the opportunity to view some of the works of our guild, and will be attending 12th Night in Stormhold. I wish to offer a prize of a book by Wendon Blake, The complete Painting Course (with 690 illustrations, 330 colour plates). As this is my first opportunity to view a significant number of the works of our artists, 'in the flesh' so to speak, and I have chosen a theme of 'animals'.*

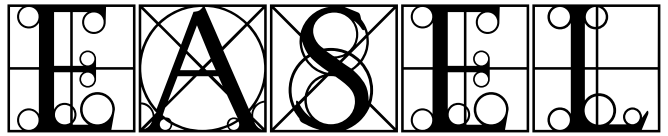

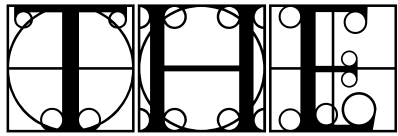

*They can be single or multiples, heraldic, painted, drawn, any form appropriate to the guild. I would like to see as many varied styles as possible.*

*I look forward to seeing your own rendition of an animal(s), and any background and documentation you can offer.*

*I thank you for the opportunity to see your artworks.*

*Lucrezia Lorenz*

There has been agreement, on the list, on voting, by the Guild members, to rank items...

If anyone is going to 12th Night, please bring along artwork for others to see. If we get the numbers we may be able to start grading work for rankings.

Cost: \$7. Postage: \$3 (in Australia) Orders are now being taken. I will also be bringing them to events I attend.

Yours Katerina.

### ON THE CHARACTER OF A GREEN CALLED VERDIGRIS

*A colour known as verdigris is green. It is very green by itself. And it is manufactured by alchemy, from copper and vinegar. This colour is good on panel, tempered with size. Take care never to get it near any white lead, for they are mortal enemies in every respect. Work it if you wish to make a most perfect green for grass.... it is beautiful to the eye, but it does not last. And it is especially good on paper or parchment, tempered with the yolk of an egg.*
